

Small Works Contracts

Within the organisation Rooff maintain a small team of managers and operatives dedicated to undertaking smaller contracts. These may range generally in value from 25K - 600K although much depends on the nature and complexity of individual projects. The directly employed operatives are multi-skilled and site managers continue this work with at least one trade.

The small works department enjoys the support from the wider organisation in areas such as training, health and safety, quality management, plant and joinery. This enables them to maintain the close and personal relationships necessary on this type of work whilst providing an economic and efficient service. All types of work are undertaken including hospitals, schools, residential and commercial situations. The managers are experienced and skilled in this work.

Where necessary they are able to utilise the services of our resident liaison department who welcome the opportunity to widen their experience in unusual situations.

Overall Rooff Small Works provide a personal efficient and adaptable service that is adaptable to our clients needs.
